

BCA Major Project Submission Outline

1. **Title Page** (1 page)
 - Project title
 - Student's name and ID
 - Course name and subject code
 - Supervisor Name
 - Department
 - Institution's name logo
 - Institution's name
2. **Declaration** (1 page)
 - Statement declaring that the work is original, completed specifically for the BCA degree, and has not been submitted elsewhere.
3. **Certificate** (1 page)
 - Certification from the supervisor stating the project's authenticity and completion status.
4. **Acknowledgements** (1 page, 200-300 words)
 - Thanks to those who assisted in the project, including advisors, faculty, and any external organizations.
5. **Abstract** (1 page, 250-300 words)
 - A concise summary of the project, including the aim, methodology, results, and conclusions.
6. **Table of Contents** (1-2 pages)
 - A detailed list of chapters, sections, and page numbers.
7. **List of Figures/Tables** (1-2 pages)
 - If applicable, include a list of figures and tables with corresponding page numbers.
8. **Introduction** (5-7 pages, 1500-2000 words)
 - Background of the study
 - Problem statement
 - Objectives of the project
 - Scope and limitations
 - Organization of the report (brief chapter summary)
9. **Literature Review** (8-10 pages, 2400-3000 words)
 - Overview of existing studies and developments related to your project
 - Critical analysis of previous works and how they relate to your project
 - Identification of gaps in existing research
10. **Methodology** (6-8 pages, 1800-2400 words)
 - Description of the research design
 - Data collection methods and sources
 - Tools and techniques used for analysis
 - Justification of chosen methods
11. **Project Description and Development** (15-20 pages, 4500-6000 words)
 - Detailed description of the project
 - Design principles and development stages
 - System architecture and models used
 - Implementation details and challenges faced
12. **Results and Discussion** (8-10 pages, 2400-3000 words)
 - Presentation of the findings
 - Analysis and interpretation of results

- Comparison with objectives and existing solutions
- Discussion on the implications and potential improvements
- 13. **Conclusion and Future Work** (3-4 pages, 900-1200 words)
 - Summary of the project and key findings
 - Conclusions drawn from the research and development
 - Suggestions for future research and unresolved questions
- 14. **References** (3-5 pages)
 - List of all academic works cited in the document
 - Use a consistent citation style (APA, MLA, IEEE, etc.)
- 15. **Appendices** (if necessary, page limit varies)
 - Additional material like code snippets, mathematical proofs, or detailed tables
 - Include only if essential to understanding the project
